SERVICE LEARNING TOURS IN SOUTH AFRICA.

Changing The Current

On a Wavemaker Service Learning trip, students work with NPO's and locals on community driven projects in South Africa. We specialize in the improvement of the South African educational system, focusing on the foundational education environment. The trip also includes a visit to one of South Africa's many game reserves, surfing in Jeffrey's Bay or Muizenberg, and many more exquisite landmarks, depending on where the trip is located.

Agnesse Scott, the owner and local contact of Paletteworx, brings extensive knowledge and experience in event planning and hospitality.

As an educator with years of experience in the South African educational system, particularly in rural schools, Agnesse is dedicated to organizing service trips that uplift and empower these communities.
